CHAPTER A: MESSAGE FROM THE PRESIDENT

Dear ROLDA friends and supporters,

It's been a very special year for ROLDA, but also a very challenging one. The biggest challenge and the most stressful for the team, was to fund the large shelter activity, which otherwise would have been closed down and 600 dogs will have been relocated.

We managed to successfully secure the funds needed to run the shelters; and even more: we managed to fund sterilization campaigns for pets from poor communities; help horses used as working animals; organize a special event with the occasion of Romania's National Day for 150 seniors; and funded some renovation work at the small shelter.

You will read about all these in the pages of this report. The most rewarding activity is of course rescuing dogs: malnourished or in need of medical treatment. Helping the dogs in our shelter, observing their progress, their transformation and finally, seeing them happy in their forever homes in Romania and across Europe is what keeps us going through the tough times. An entire team of international staff and volunteers make each dog's journey possible, helping each dog find their way to freedom, happiness and safety.

I often think how lucky myself and these dogs are to have found honest, loyal and reliable people in Australia, the US, the UK and in several other countries within Europe. We all connect our hearts and brains for the same amazing organization which started 20 years ago, as my teenage dream.

The ROLDA team appreciate people who love dogs. We believe that only together, we can achieve more for the millions of suffering animals in Romania and across the Globe.

The ROLDA team is excellent at understanding dogs: from the shy, desperate dogs to the super friendly; from the newborn, fragile puppies to the grumpy seniors; from behaviorally difficult dogs to the disabled. We transform scared, suffering dogs into happy, safe souls, helped by our qualified and highly experienced collaborators. However, each day we learn new things, overcome new challenges and I am personally blessed to assist the life changing experiences and be part of each dog's journey. I wouldn't be anywhere else but here, with this amazing team. And with these amazing dogs.

Thank you for helping us #givehope to the neglected and abused animals in one of the poorest regions of Romania.

Thank you for joining us on our journey. With each step we venture into an amazing world where dogs and people help each other. Together we make miracles possible!

HOW IT BEGAN

Over the years, people have often asked me:
"If you could be anyone in the world, who would you be?"

My name is Elena Daniela Costin, or Dana for short.
I started ROLDA soon after I finished high school.
During my 20s, the stray population boomed all over
Romania, including in my hometown Galati. My first
rescue dog was a German shepherd, which I found full
of blood and open wounds, abandoned in a local park
after an illegal dog fight. Printz was the first dog my parents
allowed to stay in our tiny apartment!

I have a story for almost all the 15,000 other dogs saved
by ROLDA after Printz.

OUR VISION

ROLDA works tirelessly to build a world free from homeless, unwanted animals that suffer terribly on the streets. A World where each dog and cat has the opportunity to form a strong, lifelong bond with their human companion.

A World where wild animals are neither exploited, nor abused, and don't have their natural environment destroyed.

ROLDA believes that our future home must be a healthy planet, and a place where all people and all animals live together in harmony.

This is where we
are heading

OUR MISSION

We are a nonprofit organization and our aim is to build humane and sustainable habitats for abused animals and to create safer, cleaner habitats to benefit the people in Romania.

The key difference between animal conservation and animal welfare is that conservation focuses on species, populations and habitats, whereas welfare focuses on the individual animal. The welfare of an animal can be described as good if the individual is fit, healthy and free from suffering.

CHAPTER E: GOALS AND PROGRESS EXPLAINED

Here are the numbers reached by ROLDA from January to December 2018.

	Goal	Number Reached	Forecasted Number
1	Dogs in Shelter	650	Full Shelter Capacity
2	Dogs helped	1139	1000
	Sterilisation of pets from poor communities		
3	Sterilised Dogs	223	As many as funds permit
4	Sterilised cats	136	As many as funds permit
5	Other animals helped	14	–
6	Dogs adopted	122	100
7	Food and medicine for dogs from poor communities	359	400
8	Social Campaigns	5	3

1. The number 650 stands for our two sanctuaries occupied at full capacity. To be able to offer decent housing, stress free living conditions and to be able to afford all the costs incurred, ROLDA is trying not to overpass the maximum capacity of our facilities.

2. The number 1139 represents the dogs we have in our daily care in the sanctuaries, plus the number of dogs from poor communities that we sterilized and helped with food and medication.

3, 4 and 5. During 4 different campaigns, we sterilized and microchipped dogs and cats from poor communities, where people can't afford these medical costs for their pets. Events were sponsored by the Swiss, Swedish and Norwegian branches of ROLDA. In total, we sterilized and microchipped 223 dogs and sterilized 136 cats in Smardan and Piscu villages, near the city of Galati.

6. The number 14 represents:
- 2 birds found with broken wings
- 2 turtles, saved and released back into nature;
- one baby fox rescued and released back into the wild when it got older, under authorities' supervision

- 10 horses from poor communities which received medical check-ups, treatment and brand new horseshoes. The horse project was sponsored by the Swedish branch

7. The 122 adopted dogs represent the total number of dogs from ROLDA sanctuaries rehomed in Sweden, Switzerland, Germany, UK and Romania.

8. The number 5 stands for the number of social campaigns organized by ROLDA – 4 sterilization and microchipping events and one event organized for the seniors from the local retirement home.

CHAPTER F: FREEDOM FROM... a painful, stressful and unfair life in Romania

TOTAL NUMBER OF ANIMALS HELPED BY ROLDA

These are comparative results depicting how many animals with or without an owner ROLDA has helped since 2015.

The numbers include homeless animals which were rescued from the streets and housed in our sanctuaries; homeless dogs badly injured and treated; dogs and cats from poor communities which were sterilized.

TOTAL NUMBER OF DOGS ADOPTED IN ROMANIA AND ACROSS EUROPE

These numbers represent the total dogs adopted to safe, forever homes in Romania and in Europe (mostly in Sweden, Switzerland, Germany and the UK).

NUMBER OF WILDLIFE CARE SITUATIONS RESOLVED WITHOUT ANIMAL INTAKE

In partnership with a local veterinary, ROLDA has helped a number of wild animals in emergency situations (birds, turtles, foxes and deers).

CHAPTER G: ACTIVITY IN ROMANIA

#givehope To Romanian animals in need

ROLDA unites a group of passionate animal lovers from Romania to Australia, across Europe, the US and Canada!

This group is the #roldafamily and they dedicate their time, knowledge and skills to improve the conditions of homeless and abandoned Romanian dogs.

They also dedicate time to helping animals such as cats, donkeys and horses, to help end abuse against our voiceless friends.

We understand that no charity can function without community support, so ROLDA runs numerous campaigns addressed to the local community. You can read about all these campaigns in the following pages.

In order to fund animal welfare activity in Romania, ROLDA receives donations from the following sources:

-donations from the Romanian public

-donations from international sources: Switzerland, Sweden, Norway, Germany, US and other countries

CHAPTER H:

#givehope to dogs and their owners

Most Romanian families in the villages survive on a small income of around 200EUR per month. Like everyone, their top priorities are food, bills, education costs, and medications.

Unfortunately pets such as cats and dogs are not a priority on such a small budget. Where there is the direct benefit of meat, eggs and milk, farm animals are routinely cared for, but people simply cannot afford the expensive veterinary costs, vaccinations, sterilisation, microchipping and sometimes even food for their dogs and cats. This creates a pretty big problem. If their pet becomes a financial burden, they can choose to help the pet or let their family go hungry. The choice is mostly a simple one.

We at ROLDA know that the main source of Romania's huge and overwhelming homeless dog problem is due to pet abandonment, so we encourage locals to keep their animals.

How do we do this? First we understand that a charity functions within the community, for the benefit of the community. That's why we run campaigns that not only help the animals in need, but also the people who care for them.

ROLDA creates partnerships with local vets so we can cover the costs to sterilise and microchip the dogs and cats from disadvantaged families. This is a pretty big help. Once the animals are sterilised, they no longer produce unwanted puppies or kittens. It is illegal to abandon a dog in Romania, so once microchipped, they are less likely to be discarded for fear of being heavily fined.

We ensure our existence is known to these families, so they can contact us should their dogs or cats need treatment they cannot afford.

ROLDA will never refuse an animal in need.

In 2018, ROLDA Sverige and Association ROLDA Suisse supporters contributed to four sterilisation and microchipping events, all in the villages of Smardan and Piscu. 359 dogs and cats will not reproduce in the coming years as a result of these campaigns. This equates to thousands of puppies and kittens who will not suffer neglect and misery due to our campaigns.

In the summer of 2019, ROLDA aims to organise a major sterilisation event, sponsored by Association ROLDA Suisse and we aim to reach 400 dogs and cats.

CHAPTER 1: #givehope to others in need

How do we help the horses owned by people from poor rural communities?

Unfortunately in Romania, it's not just dogs that are exposed to diseases and abuse, but also working animals like donkeys and horses.

Exploited for heavy work while they are young and strong, they are then disposed of, often because owners can't stretch to pay for expensive veterinary treatments. No vet clinic in the south east of Romania offers discounted assistance to large animals owned by disadvantaged people.

ROLDA is formulating a project for the future once funding or sponsorship is available. Could you collaborate with us to help working animals?

Although we need funding to make a big difference to the lives of these working animals, ROLDA had to act immediately. Using our current financial means, we decided to step in and help the disadvantaged community provide the appropriate care.

A pilot campaign was organised in autumn 2018, sponsored by ROLDA Sverige. We provided 10 horses with deparasitation, alongside treatment for their wounds and new shoes made by a skilled blacksmith in the village of Smardan. We were able to bring comfort and safety to these sensitive, intelligent creatures when it was most needed.

With your help, we hope to be able to repeat this in 2019!

How do we help seniors from the local community?

When we first visited the largest retirement home in the local area, we were overwhelmed by a heavy silence, clinical atmosphere and the look of sadness on people's faces.

We were welcomed by the director of the centre, Mr. Subasu, who was happy to accept our idea to organise a special dinner but very resistant to our suggestion to bring in a rescue dog to cheer up the seniors.

Because we rarely take no for an answer, we pressed him further. When we discovered the director himself adopted a dog from the streets, there was no escape! While he confessed how much his dog has changed his life, making him feel happier, and healthier, because he now does more exercise, we asked, "So why shouldn't all these people benefit from the same positive experience a dog brings to your world?" Our idea was accepted.

We already had our dog, Tarot, in mind. When you meet Tarot, you would be forgiven for not realising what an awful time he's had.

We found him covered in hot tar, which had burnt his skin and left terrible injuries.

His recovery was impressive, alongside his friendly spirit, which by far made him the best candidate.

On 1st December, three ROLDA members and Tarot joined the seniors of the local retirement centre to celebrate the National Romanian day.

This is the letter of gratitude (in Romanian) received from the retirement home's director, Mr. Subasu:

Cuvant de multumire

In regasirea sinelui, omul are nevoie sa se uite la el. Sinele, de regula, este interpretat ca o forma interioara, imateriala, dar cu o dinamica speciala. Pentru a-l regasi, suntem obligati sa iesim insa din carapacea conceptuala autoimpusa si sa vedem acest "sine" si ca pe o forma externa, materializata in fapte, actiuni, idei...

O astfel de manifestare care este plina de bucurie, a avut ca scena Caminul pentru Persoane Varstnice "Sf. Spiridon" din Galati. Aici a sosit pentru a bucura seniorii, o fiinta care a avut parte din norocul de a da peste o seama de oameni buni. Vorbim aici de Tarot, un catel care a avut sansa sa aduca bucurie semenilor nostri. Asociatia ROLDA din Galati - salvatoarea lui Tarot - a dorit sa impartaseasca nespusa bucurie a lui Tarot impreuna cu seniorii din Caminul pentru Persoane Varstnice "Sf. Spiridon", pe data de 1 decembrie 2018. Omul nu a fost lasat singur pe pamant, el este acompaniat intotdeauna de alte fiinte, care nu au decat un singur rol, acela de a ne completa. De aici provine superioritatea umanitatii: acceptarea a tot ceea ce ne inconjoara in mod natural, ca pe un dar oferit umanitatii. Este una din regulile de aur a vietii noastre trecatoare...

Nu trebuie sa uitam niciodata povestea lui Noe, care a construit o arca, nu doar pentru el si neamul sau. Avem un loc pentru Tarot in arca inimilor noastre. Ne-am bucurat impreuna!

Multumim Tarot, multumim ROLDA, multumim Lolitei si echipei din Elvetia!

Adrian-Daniel SUBASU

It was a great experience and Tarot did his job in a very professional manner. The seniors were given lovely handmade gifts and kisses from Tarot.

We decorated the tree together, while they smiled and reveled in the holiday spirit.

I would dare to say we all felt a bit more connected. Wasn't this the whole purpose?

To revitalize the meaning of human-dog bond, to bring a little happiness to those in need and #givehope where nobody else does?

CHAPTER 1: #givehope to dogs from our shelters

Started in 2017, the renovation of the cottage at the small sanctuary was slow. Funding is tight and our goal is always to put every penny toward saving more animals in need. Due to this, we hardly have funds to spare for anything else.

The renovation of the cottage was essential because the building deteriorated to unacceptable standards and our team requires suitable conditions to bath and groom the dogs ready for adoption, especially during the cold season.

Thanks to grants made by our Swiss branch, the new cottage took shape.

This is the list of improvements:

1. A new roof (autumn 2017)
2. A warehouse to store food and dog supplies (started in winter 2017; interior finished in 2018)
3. The interior of the cottage (windows and doors, electrical wiring/plumbing, flooring and linoleum on the walls, grooming equipment and bathroom accessories)
4. The exterior of the cottage (special paint)
5. A surveillance system to secure the property and ensure protection for the dogs

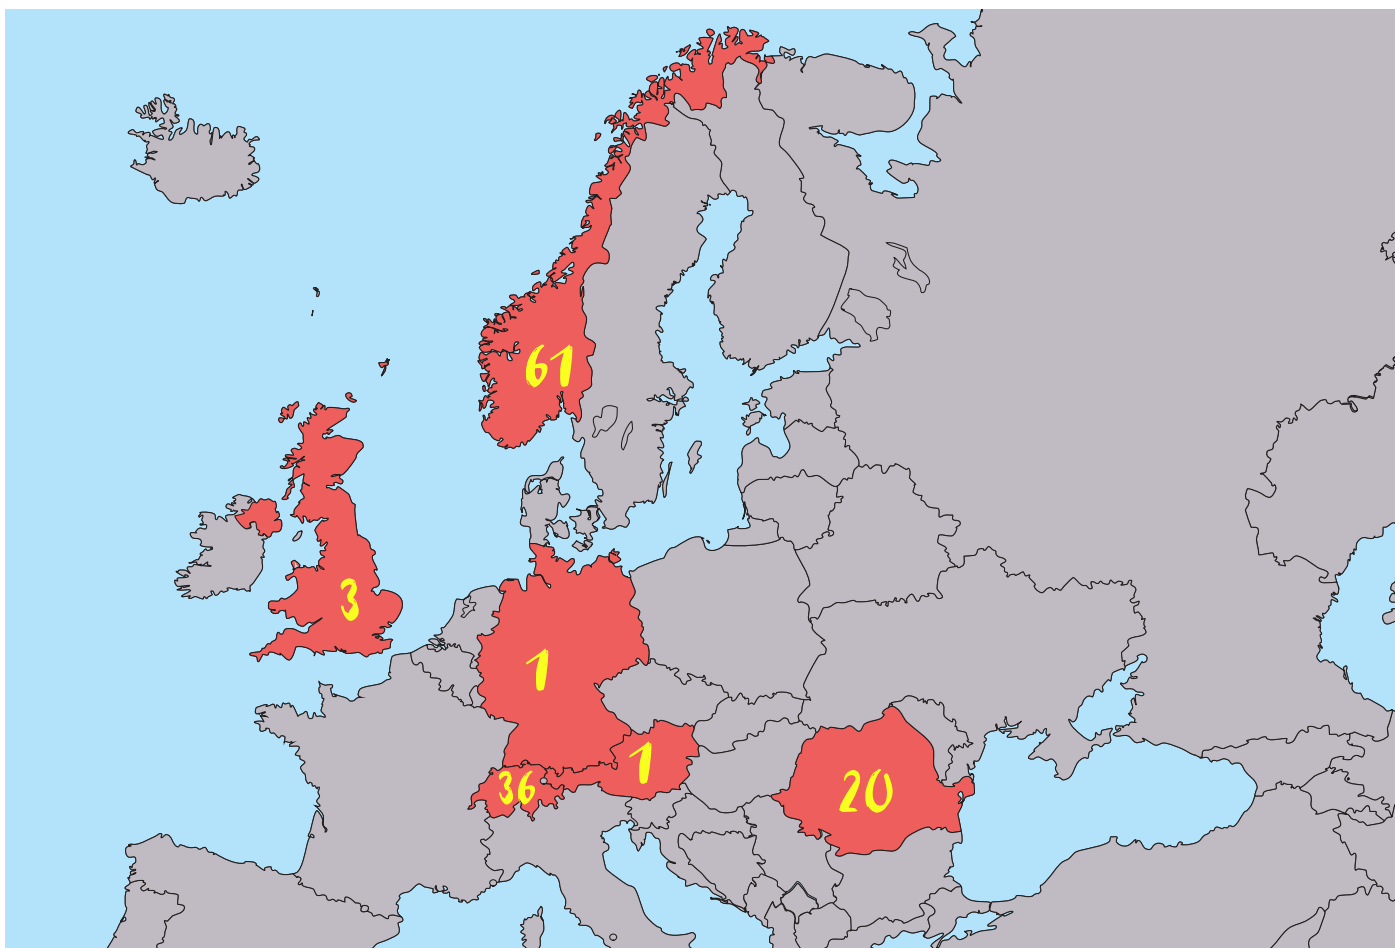

CHAPTER K: #givehope To ROLDA dogs worldwide

We have arrived at the most important section of this report, the very essence of ROLDA and the reason we do what do, against all odds.

The moment when the long journey of a homeless dog, which started on the harsh Romanian streets, ends in their loving, safe forever home. ROLDA successfully adopts dogs within Romania and European countries like Sweden, Switzerland, Germany and the UK.

The total number of dogs rehomed in 2018: 122. We are immensely proud of this.

To increase the #roldadogs chances of being adopted by wonderful families outside Romania, ROLDA has begun to design a new website where our dogs will be showcased online, giving each one the best chance of catching a potential adopters eye.

We will launch our new Page very soon where people can browse all our dogs for sponsorship or adoption. You can access it here:

ROLDA PLANS FOR 2019

FEBRUARY

Fundraise 4,500EUR for our annual vaccination campaign.

JANUARY TO MARCH

#givebowls campaign to raise funds for extra nutrient food for dogs in winter time. Our goal is to raise 5,000EUR.

MARCH TO LATE OCTOBER

Fundraising: 8EUR for Advantix Spot-on and 7EUR for heartworm pills per dog to be protected against lethal diseases caused by ticks and fleas (Advantix) and mosquito bites (heartworm pill) – 72,000EUR are necessary or as much as possible from this amount.

FROM MARCH ON

When the weather improves, we aim to demolish the small paddock(5 dog boxes) and create a small refuge for rescued cats. Here, we intend to welcome senior or disabled cats. The cats refuge will be insulated, ventilated, with linoleum flooring, lots of indoor and outdoor accessories inspired from top cat refuges from the US and the UK. Cost of the project: 20,000EUR.

Replace 20 dog beds at the small sanctuary: in the dogs' paddock, the plastic beds are chewed and broken. The wet floor increases the risk for dogs to get cold or rheumatism. Each dog bed costs 97GBP, made of aluminium, spare covers are available, as well as the replaceable elastic cords that keep the cover taut at all times. The dog bed is designed by Ferplast from Italy please see link below: <https://www.ferplast.com/gb/indoor-dog-beds-kennels/dream.html>

JUNE

Sterilization campaign for pets(dogs and cats) from rural communities with low income. Campaign is sponsored by Association ROLDA Suisse.

We also must replace the dying and old red rescue van with a new van. The fundraising for this project was started by Association ROLDA Sverige.

Started in December 2018 the Build a dog-house campaign will continue until end of 2019. We raised money for 30 doghouses by the end of 2018.

Our dream goal is to be able to deliver 400 doghouses to the poorest villages, where dogs need protection against extreme weather conditions. Read more here: <https://www.ferplast.com/gb/indoor-dog-beds-kennels/dream.html>

For another year, we'll ask for help from our international branches. ROLDA must find the resources to fill the gap caused by the Mittal abusive termination of our contract, losing 10,000EUR monthly to properly run the large sanctuary where 600 dogs depend on us.

Seeing the happiness and joy that our visit accompanied by Tarot the dog produced to seniors from the local retirement home, we are determined to repeat the event once in December, just before Christmas and before that, to a special event we'll agree on with the center's manager.

The costs are estimated to a total of 5,000EUR and we hope to find generous supporters to cover them.

CHAPTER V: TESTAMENT / WILLS

How we can shape the future based on the values we share

Your legacy of kindness

It's hard to say what it is about pets that leave such a lasting mark on us. Perhaps it's their remarkable ability to love unconditionally, to forgive to live life fully in the moment. Or perhaps it's simply the way they prance about on walks or stealthily take over your bed at night.

Whatever it is, your pets have left a unique imprint on your heart, helping to shape what matters to you most today. That may mean wanting to reach out and help the many homeless pets waiting to experience the same joy you share with your pets.

Your love of all animals, forged by those deep bonds, has already helped create a better life for many homeless pets.

By making a gift to ROLDA through your will, trust or another legacy plan, you can create an enduring gift to #givehope to all the animals in need for the future.

With simple planning now, your acts of kindness today will continue to make a difference for generations to come. By making a planned gift, you'll continue to help create sweeping changes in the way Romania treats its homeless and abused animals. Planned gifts offer you the opportunity to combine your charitable interest in ROLDA with estate planning options that often feature favorable financial and tax benefits.

Baba and Maria (1 & 2) are examples of Romanians reacting to Romanian animals crisis. We have supporters from the US and Australia who also make legacy planning in favor of our charity. ROLDA President, Dana already made her own legacy, leaving ROLDA the full beneficiary of her assets.

1 Baba and her cat

Baba decided to leave her small apartment to help ROLDA continue its rescue work in Romania.

2 Maria and Tarot

Maria decided to leave a small legacy to ROLDA

These types of gifts may also allow you the opportunity to:

- Generate income now and into the future
- Reduce taxes
- Avoid capital gains taxes
- Preserve wealth for your family
- Honor a family member, friend or favorite pet by making a tribute gift

Your legacy in action

The legacy you create now will help ensure that the difference you've made for so many homeless pets today can continue on for the homeless pets of tomorrow.

That's especially true if you choose to designate your gift for general use.

Doing so means the 900 or so animals that rely on ROLDA for care or emergency aid (food, medicines) on any given day will feel your generosity. So will the hundreds of community pets saved from death in shelters every year through social programs (including sterilization, microchip), and the grateful families helped. And so many more will benefit from your gift as well. Regardless of what gift option you choose to help animals in need, your donation can be used for whatever purpose you choose. This is your gift to the future, and we have the highest respect for your wishes.

To ensure that we can comply with your wishes, please contact ROLDA team at rolda@rolda.org before executing legal documents containing a specific use for your gift.

Please visit this website <https://legacy.rolda.org> especially created for our supporters who wish to shape the future of our animals and the future of ROLDA projects because we share the same great values.
